The Arizona Department of Juvenile Corrections (ADJC) is committed to providing a school environment that enhances learning and development of lifelong wellness practices.

It is with this in mind that ADJC supports a school environment that encourages and models nutritious eating habits and physical activity, which promote academic success and lifelong health for our students, personnel and community.

---

**Definitions:**

- 1. National Commission on Correctional Health Care (NCCHC)** – standards for medical and mental health care in corrections. These standards are used to accredit jails, prisons, and juvenile confinement facilities, and to assist public and private agencies in monitoring the quality of medical services provided in these settings.
